

# How to get to Tokyo Physio by Taxi

Before getting into the taxi check if the driver understands "Ebisu san-chome kossaten" (Ebisu three chome crossing), and that he knows how to get there. If the driver tilts his head and sucks air for any longer than one second, it's probably easier to find another taxi. Most drivers should know the way. Show the map to driver. Once you are at the Ebisu 3 chome intersection look for the freeway running over head, opposite the Lawson and walk / drive down a narrow lane way running directly underneath the freeway lane with the car park on your right. About 70metres down the lane the car park ends there is a playground under the freeway. You will see a new looking yellow building on your left hand side, Atrium Shirokane.

## Actual Step with Japanese language;

1. Show the following Japanese phrase to the driver  
「恵比寿3丁目交差点は分かりますか？」 (Do you know Ebisu san-chome kossaten ?)
2. Arriving at Ebisu san-chome kossaten (Ebisu three chome crossing)  
Get off the taxi and walk about 70m, or show the following Japanese phrase to the driver;  
交差点のコンビニ、am/pmと反対側の高速道路の下の側道を、右手に駐車場を見ながら、70mほど行くと、左側にベージュ色の5階建てマンションがあります。それが、Tokyo Physioがあるアトリウム白金です。(Translation of : Once you are at the intersection look for the freeway running over head, opposite the am/pm and walk / drive down that lane with the car park on your right. About 70metres down the lane the car park ends there is a playground under the freeway. You will see a 5 storey new looking yellow apartment / mansion building on your left hand side; Atrium Shirokane.)
